Allowable Subject Matter

Claims 1-14, 16, 19-22, 74 and 75 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-4, 16, 19-22, 74 and 75 are allowable over the prior art because Claim 1 sets forth that there are means for positioning the light source on a rotating reference frame of a wheel and that the amount of reflected light from a visible surface of wheel is greater than the amount of light from the light source directed away from the visible surface. This combination of limitations was not shown or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the application has been allowed. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
